Gum disease (bleeding gums) which does not respond to treatment is a possible sign of diabetes. Ask your dental team about diabetes and our NEW screening test.

***The first Lady Dentist*** was Emiline Roberts (no relation to our Drs. Roberts as far as we know!). In 1859 she apprenticed with her dentist husband. She went on to practice dentistry for over sixty years!!

The first woman to receive a formal dental education was Lucy Hobbs in 1866 from the Ohio college of Dental Surgery right here in Cincinnati, Ohio!!!!

When Dr Eugenia started practicing dentistry in 1980, she was the second woman dentist in Cincinnati and one of only 2% women dentists in the country! Today, approximately fifty percent of students entering dental schools are women.
